

Art for Design Lovers

Solar

A fresh perspective on Modernism

Solar looks to the immense scale and beauty of the solar system and the bold geometry and austerity of brutalist architecture.

Made from die cut 100% wool felt, Solar is an impactful, bold and symmetrical artwork for any commercial or residential space.

Product details

Size: 900x900x25mm

Frame: slate or yellow lacquered metal

Our artwork series are composed of layers of 100% wool felt, a tactile and naturally sound absorbent material.

All artworks are framed, can be ordered individually and come in two standard sizes. Hang them as pairs, in a triptych, in a block of four or as solo pieces.

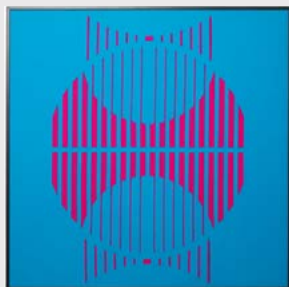

Thought-provoking works with sound absorbent qualities that inspire ideas and stimulate creativity.
